Dear Findley Lake Neighbors,

As we welcome in the new year, we would like to express our gratitude to the 200+ members of the Findley Lake Watershed Foundation for your support over the past year. 2017 was a year of many accomplishments. After many months of planning, preparation, and construction we saw the completion and dedication of the Dam Restoration Project. The restoration of the Dam will ensure that Findley Lake will continue to be enjoyed for many generations and provide long term protection for such a valuable asset in our community. On our grounds near the Dam a Flag pole beautification project has begun along with ongoing maintenance projects to the waterwheel overlook building.

The Watershed Foundation remains as the sole organization responsible for maintaining our Lake for all of us to enjoy. Weed Management and Harvesting is our largest undertaking and with your support we continue to refine and improve our operation to most effectively carry out this task. We are currently seeking grant funding to purchase a new weed harvester, as the current unit is nearing 14 years old.

By supporting the Watershed Foundation with your contributions we can continue the Weed Management and Harvesting, maintain the grounds, gazebo, waterwheel overlook, and provide for water quality testing. We hope that you will continue to be an integral part in the care and maintenance of Findley Lake by renewing or becoming a new member in 2018. Without member dues we cannot accomplish what is necessary to keep Findley Lake healthy and safe for everyone.

Attached please find the 2018 membership form. Please complete and return with your membership dues.

Thank you for your continued support to care for Findley Lake.

Sincerely,

Lex Brumagin
Membership Chairman
Findley Lake Watershed Foundation

2017 - 2018
